

Pests

If you are experiencing a pest problem the Council can provide advice on measures to prevent and control the problem. Statutory action can also be taken against owner(s) or occupier(s) that fail to take adequate preventative measures to prevent their properties becoming infested with rats or mice. Should you require a treatment to eradicate pests, please contact Northern Group Systems on 028 25665 818. The council subsidise the provision of this service so you only pay cost price.

For advice on common pests please contact the Environmental Health Department at Antrim Borough Council on Tel: 02894 463113

Or

E-mail: trevor.stewart@antrim.gov.uk
gareth.thompson@antrim.gov.uk
